# Revolutionizing Retail: Empowering Businesses in the Dynamic E-commerce Era

99

IGT Solutions leads the charge in transforming Retail and E-commerce landscapes through innovative technology and customer-centric strategies - driving unparalleled customer experiences and business growth.

#### RESILIENT, FRICTIONLESS, RELEVANT.

IGT Solutions recognizes the increasing complexity and challenge of maintaining brand relevance within the rapidly evolving Retail and E-commerce sector. At the heart of enhancing brand relevance and recognition are robust fundamentals, including the establishment of a resilient operational foundation. This foundation should be optimized with the right technologies driven by experts dedicated to streamlining back-office processes and spotlighting efficiencies. Built on this foundation are flexible strategies that ensure a frictionless customer experience—delivered accurately and with high quality, precisely when and how your customer desires. These elements are crucial for securing your brand's relevance in the marketplace and with your customers.

Our Next-Gen CX Services, powered by AI and machine learning, deliver cutting-edge omnichannel customer journeys. IGT Solutions emphasizes value realization and innovative IT solutions, fostering collaboration among customers, business teams, and technology for exceptional end-user experiences. Through advanced services driven by Smart Agents<sup>TM</sup>, automation, and analytics, we excel in crafting superior customer experiences that boost revenue while optimizing costs.

Comprehensive frictionless Customer Experience solutions designed to deliver joy and satisfaction

# SYNERGISTIC SOLUTIONS OPTIMIZED BY AI AND POWERED BY DATA ANALYTICS

The Retail and E-commerce industry has skyrocketed in growth over the past decade, undergoing a transformative evolution in its operations.

To lead the pack in this dynamic, ever-evolving landscape, businesses require a nimble Customer Experience ally that harnesses digital innovation to boost sales and provide exceptional customer service.

 $^{\star}\mathrm{Cognitive}$  services provided by partners like Microsoft LUIS, IBM Watson and Google Dialog Flow.

#### HARNESS THE POWER OF GENERATIVE AL

# TECH300.AI

#### UNLEASH RAPID INNOVATION, DRIVE BUSINESS OUTCOMES, AND ENHANCE CX WHILE OPTIMIZING COST EFFICIENCY

TechBud.Al™ is uniquely positioned to revolutionize the retail industry by delivering significant benefits and achieving remarkable results through its advanced Al solutions.

- Enhanced Customer Experience: TechBud.Al™ improves shopping experiences globally with its Voice integration and Language translation, enabling personalized interactions in customers' native languages for more intuitive and satisfying engagements.
- Inventory Optimization: TechBud.AI<sup>TM</sup>
  uses predictive analytics to accurately
  forecast product demand, helping you
  stock just the right amount. This reduces
  overstock and stockouts, cuts storage
  costs, and boosts sales opportunities.
- Efficient Query Resolution:
  TechBud.Al<sup>TM</sup>'s suite of CoPilots, tailored through Prompt Engineering, quickly handles diverse customer queries. This boosts customer service and lets our live agents tackle more complex tasks, increasing productivity.

- Increased Operational Efficiency: By automating routine tasks, TechBud.Al™ helps you slash manual labor costs and elevate operational efficiency, freeing up resources for strategic initiatives.
- Content Moderation and Brand Safety: TechBud.Al™'s content moderation tools keep user-generated content on your platforms appropriate, preserving brand integrity and ensuring a safe user environment.
- Innovative Marketing and Sales Strategies: TechBud.Al™ boosts retail sales by analyzing customer data and market trends to create personalized marketing campaigns and product recommendations. This approach enhances conversion rates and customer loyalty.
