

# IGT EU261Xpress.AI

## Seamless and Quick Claim Processing with our Automated Gen-AI powered Solution

The EU261 regulations are comprehensive and can be complex to interpret, especially for organizations that need to become more familiar with aviation law. Airlines need legal expertise, organizational resources, and agility to respond to passengers quickly and accurately for a hassle-free claims processing experience.

IGT EU261Xpress.AI revolutionizes automated claims processing with its Generative AI-powered solution. This comprehensive platform offers a one-stop, seamless experience, providing real-time responses and unparalleled clarity, speed, and transparency. Advanced automation ensures rapid and precise claims processing without human intervention, even for intricate scenarios under regulations like EU261.

## IGT EU261Xpress.AI presents Key Operational, Financial, and Customer Experience Advantages
